

Making a positive impact in Seafood

Grow your margins in the face of changing market conditions

At Brooklin Consulting, we work with industry leaders to help them overcome their unique business challenges, uncover their greatest opportunities, and achieve impactful results.

With over 30 years of industry experience, we have worked on-board the vessels at sea and in seafood processing plants in Canada, the US and worldwide.

How we do it

We can *guarantee* you will see measurable results for your business challenges. How do we make this claim?

At Brooklin Consulting we:

- Assess the current state, identifying revenue improvement and cost saving opportunities.
- Develop measurable goals and solutions.
- Implement improvements with your people.
- Sustain enhancements with a clear long-term strategy.

We use our *“Structured Approach”* to foster change, train staff and help generate profits. We will work with your team every step of the way to enable your people to achieve long-term sustainable improvements.

Make a positive impact

Our highly qualified teams are experts at achieving tangible and measurable results for your company.

We are here to help you prosper. Let's connect!

What matters most: results

Through measurable results, we ensure your success is ongoing throughout the project and well beyond.

Our projects are tied to clearly defined improvements.

- Annual improvements achieved are often **3:1 ROI**.
- Over **95%** of our clients experience better than forecasted improvements.
- **100%** of our clients have agreed to be references.

Client results achieved with Brooklin Consulting

- 200% - 300% increase in daily production
- 33% productivity improvement
- 30% increase in throughput
- 5% yield improvement
- 50% reduced machine downtime
- 50% reduced defect rate
- 59% reduced production lead time

What our clients have to say

We are proud to have supported these clients:

- Cooke Aquaculture
